

### Vehicle Financing Market

1

September/2021

INFORMAÇÃO PÚBLICA

#### INTRODUCTION

SNG (National Liens System) is a system that manages the financial restrictions on motor vehicles, and its main objective is to provide banks, lending firms, leasing companies and purchasing pool administrators with information about vehicles offered as collateral in a credit transaction.

After SNG was created, fraud involving credit transactions for vehicle financing in the Brazilian market was virtually extinguished.

This file contains detailed information on the performance of the Brazilian vehicle financing market and on the penetration of financing on vehicle sales (source: Fenabrave) and comes as a complement to the vision of the vehicle credit portfolio (source: Central Bank of Brazil).
