EXTERNAL COMMUNICATION

OTC B3 Participants

Re.: **Start of the Trading Certification Period for Private Fixed Income Securities at Trademate (Debentures, CRIs, CRAs and CFFs)**

B3 hereby informs you that as of April 29, 2024, Trademate will be available in a **Certification** environment for trading private fixed income securities.

Users who have logged in in the past twelve months and/or who have traded in the past six months in the Trader Production environment have been automatically included in the Trademate Certification environment (see External Communication 007/2024-VPC, dated February 8, 2024).

This is the final trading migration stage of Trader platform securities to the Trademate platform, which currently operates with government bonds and CBIOS.

In due course we will announce dates and procedures for Production environment implementation for private securities at Trademate, as well as information on the deactivation of the Trader platform.

The technical specifications of the new Fixed Income platform are available at [B3 Clients – New Fixed Income Platform](#), in the Technical Information and Support Material sections.
