

OFFSHORE COLLATERAL TRANSFER MANUAL

**DAR - GOR
2025**

1. INTRODUCTION

According to CMN Resolution No. 4,569 of 2017, nonresident investors are authorized to post collateral abroad for transactions in the Brazilian financial and capital markets. There are two types of investments:

- Defined by Resolution CMN No. 2,687: Investors who settle their trades in U.S. Dollars in B3's agricultural markets and are allowed to post U.S. Treasury bonds and U.S. Dollars as collateral for their transactions:
- Defined by CMN Resolution No. 4,373: Investors who trade options, forward contracts, lending transactions (BTB), indices, listed and OTC derivatives are allowed to post as collateral U.S. Dollars, Euros, U.S. Treasury bonds, ADRs (American Depositary Receipts) of stocks eligible to be accepted as collateral and German Treasury bonds. Additionally, only investors domiciled in the United States of America and the Netherlands are authorized to deposit euros.

The Central Bank of Brazil, through Circular Letter No. 3,838, established that the total amount of assets that can be held abroad for the purpose of complying with the collateral requirement may not exceed 8% of the added margin value required by the clearing and settlement system. Therefore, it is necessary to request a limit for posting collateral abroad to B3's Collateral team through a representative broker.

2. OFFSHORE ASSETS ACCEPTED AS COLLATERAL

The following assets are accepted as collateral:

- U.S. Dollars (Citibank only)
- Euros (J.P Morgan only)
- U.S Treasury bills, bonds or notes
- ADRs representing stocks eligible to be accepted as collateral
- German government bonds (Euroclear only)

3. COLLATERAL TRANSFER VIA DTCC

This procedure is exclusively applicable to settlements conducted through Indeval where the use of Euroclear Bank Codes in the settlement instructions is desired. To implement this format, it is necessary to enter the Euroclear BIC Code (MGTCBEBE) in the "BIC CODE Delivery Agent" field. This action will enable the required fields to be made available and ensure the correct generation of the SWIFT message. It is important to note that the MGTCBEBE field will not be included in the generated message; it serves solely as an indication to the system that Euroclear Bank Codes will be used.

7. EVENTS

7.1 Coupon Payment

B3 will request that securities deposited as collateral be either withdrawn or replaced ten business days before the coupon payment or their maturity date counting from the record date.

7.2 Maturity

B3 does not authorize collateral deposit for coupon payment or with maturity in the following ten business days from the record date.

8. PRICING

A list of securities accepted as collateral is available on the B3 portal (http://www.b3.com.br/en_us/products-and-services/clearing-and-settlement/clearing/risk-management/collateral/accepted-collateral/). If the ISIN number of an international security chosen for collateral posting is not on the list, please contact B3's Collateral team so that they can proceed with its registration. The registration request must be made in advance as the valuation date is T + 1.

9. COSTS

The costs of B3 charged monthly by DTCC and Euroclear for the custody of assets are shared proportionally by the B3 participants which requested such service and who may transfer those costs to the investor.

10. DOS AND DON'TS

10.1 DOS

- Withdraw the security before its maturity date and before paying the coupon.
- Before making a deposit at the depository (DTCC/Euroclear) check with B3 through your representative broker if that security is accepted as collateral.
- Always inform the SWIFT number to the representative broker in Brazil when making a deposit in U.S. Dollars or Euros.

10.2 DON'TS

- Deposit securities in T-10 before their maturity date / coupon payment.
- Instruct Delivery Free of Payment (DF) before making sure that the security's ISIN code is eligible as collateral at B3.
