EXTERNAL COMMUNICATION

To: B3 Market Participants – Bovespa and BM&F Segments

Re: **RSS Feed for B3's Trading Support.**

To keep participants in its markets constantly informed, B3 hereby informs you that as of June 05, 2017, it will use RSS feed technology to disclose the availability and technology updates of its trading systems.

Therefore, participants who wish to obtain information via this feed must use RSS readers for Android, IOS, Windows, Linux and other platforms, as well as integrate it to its email managers (Microsoft Outlook, for example). They must therefore execute the due configurations, using the following URL www.bmfbovespa.com.br/data/rss/suporteanegociacao.xml.

Users that prefer to access, via browser, the history of all of the news, in Portuguese, published by B3's Trading Support, may do so at www.bmfbovespa.com.br, at Services / PUMA Trading System BM&FBOVESPA.

Please note that systems providers shall develop integrations in their systems for the disclosure of this type of information.

The RSS feed does not substitute B3's other official forms of communication with the participants in its markets (external communications, circular letters and emails).

Further information may be obtained from Trading Support by telephone at (+55 11) 2565-5000, option 2.

Cícero Augusto Vieira Neto
