1 DATAWISE

DATAWISE is an analytical data provision service that allows its users to execute descriptive analysis of the markets in which they trade or analyze individual investor's behavior. Data on DATAWISE Dashboard are published in the form of comparative panels called dashboards, with graphs and information relevant to decision-making processes and on DATAWISE Reports data are published on files format.

2 GRATING ACESS

After contracting the service, the user will be granted access to DATAWISE.

The processes for granting access to internet and extranet are described in the items below.

2.1 Granting acess to participants

The access granting occurs in the Unified Access Control (UAC) system, whose purpose is to provide a single system of Identity and Access Management, thereby simplifying management of accesses and unifying their control in a secure environment. To access the services contracted at DATAWISE, the user will require pre-authorization from the institution's user with permission level at UAC.

2.1.1 Registration of users by the user with permission level

To grant accesses, the user with permission level must access the website https://cau.bvmfnet.com.br/cauwebportal/ and login:

4.2 DATAWISE Reports

Acessing DATAWISE Reports, the user will have available the tab released on the profile on the Unified Access Control (UAC) and the permission given to him by the Master user. Check out the tabs available for each user below:

4.2.1 Adminitration

This tab will be available only for users with the master profile (DATAWISE_REPORT-EXT-MASTER) on the UAC. On this tab the Master user will be allowed to give "Buyer" or "Viewer" permission to users of the institution. It is worth noting that if the user only has the master profile, he will not be able to access the downloads tab, which gives access to the product.

4.2.2 Download

This tab will be available only for users with the comum profile (DATAWISE_REPORT-EXT-COMUM) on the UAC. The files that the buyer user has

INFORMAÇÃO INTERNA - INTERNAL INFORMATION

released for that particular user are displayed on this tab so that the download can be performed

4.2.3 Produtos

This tab will be available only for users with the common profile (DATAWISE_REPORT-EXT-COMUM) on the UAC and with the permission of "Comprador" (Buyer). On this table the users can view existing products, product examples, and purchase new products.

5 ESPECIFICAÇÕES TÉCNICAS DO TABLEAU SERVER

The modules of DATAWISE Dashboards are powered by Tableau Server so before accessing these modules it is important to check whether the browser compatibility prerequisites have been met.
