EXTERNAL COMMUNICATION

To: Listed B3 Participants

Re: **Market Data B3 – Binary Market Data Feed Connectivity Data Now Available**

In order to assist participants, vendors and investors with the release of firewall rules for the launch of the Binary Market Data Feed, the new IPs and network connection ports via the RCB network are now available for this new feed in the certification and production environments.

The Binary Market Data Feed will be developed in the UMDf protocol with simple binary encoding (SBE), and will be solely for the depth Market by Order (MBO) in the equities and derivatives markets.

It is important to note that the following services will **not** be available:

- Replayer and Historical Replayer;
- UMDfTCP Conflated;
- UMDf in depth types Market by Price (MBP) and Top of Book (TOB).

The connectivity data and technical specifications for the Binary Market Data Feed can be found at https://clientes.b3.com.br/en_us/, Roadmap, Binary Market Data, Technical Details.

123/2022-VNC

The launch date for the Binary Market Data Feed in the certification and production environments will be announced by the end of the third quarter of 2022.

Further information can be obtained from Trading Support by calling +55 11 2565-5021, or by emailing tradingsupport@b3.com.br.
