# Listed Overview DATAWISE DASHBOARDS

#### **1 PRODUCT DESCRIPTION WITHIN THE DATAWISE SERVICE**

The DATAWISE product was created by B3 with the aim of helping its clients in strategic decisions consolidating various reliable and/or sensitive data in the form of interactive dashboards (DATAWISE Dashboard) and reports (DATAWISE Reports). It should be noted that as stated in the Commercial Policy, the DATAWISE service does not allow the distribution or redistribution of data.

Each of these modules can be contracted separately as well as their products (individual dashboards and reports), according to the client's intention. Through the interactive panels it's possible analyze the behavior of stocks (BOVESPA), derivatives and stock futures (BMF) and rental of stocks (BTB) with DATAWISE Dashboards. Already in DATAWISE Reports you can analyze trading and post-trade asset data, mainly from the OTC market thought reports with raw data (Data Report) or worked reports (Market Report).

In this manual we will show the Listed Overview dashboard layout, data and filters contained in the DATAWISE Dashboard module.

#### **2 DASHBOARD DESCRIPTION**

The Listed Overview dashboard brings 6 panels, which allow the user to view and analyze relevant information on the markets served by B3 to serve as input in defining strategies and assisting in investment decisions.
