

## Revision of the Time Parameters for Recalculating the Average Price of Auction Tunnels by Average Price for Futures.

Intended for segment participants: Listed

Abstract: The new parameters for the time interval for recalculating the weighted average price of operations for auction tunnels by average price for the specified groups will be effective as of 06/09/2025.

As of **06/09/2025**, new parameters will come into force for the time interval for recalculating the weighted average price of operations for the auction tunnels by average price for the groups specified below.

For the other groups and goods that have the active average price tunnel, the 15-second time parameter for recalculating the weighted average price of the operations is maintained.
