

## Change to the minimum size for cross order registration

Intended for segment participants: Listed.

Summary: B3 will adjust the average percentage of cross order volumes for the NEOE3 and BDR ETF products.

B3 informs you that, based on the monthly monitoring of indicators and thresholds in relation to cross order registration rules, it has identified the need to adjust the average percentage of the volume of these orders in the following products:

- **NEOE3** - the average percentage of cross order volume in the past three months fell from 29.2% to 20.5%. Therefore, as of **April 17, 2026**, the minimum size for cross order registrations for this product will be 10,000 equities and the cross order registration functionality in the Book of Block Trades (BBT) solution will be available for this asset.
- **BDR ETFs** - the average percentage of cross order volume in the past three months fell from 21.2% to 14.6%. Therefore, as of **April 17, 2026**, the minimum size for cross order registrations for this product will be 10,000 contracts.

The minimum quantities for cross order registration are available at [Cross Orders |B3](#).
