EXTERNAL COMMUNICATION

Listed B3 Participants

Re.: **New Version of ePUMA– 7.8.9.1**

B3 hereby informs you that as of April 1, 2024 a new version of ePUMA will be made available for market participants, with a range of enhancements whose highlights are listed below. This action is part of the continuous enhancement process of the ePUMA trading screen.

1. Interface improvements and the creation of a UDS

- 1.1.** The « Código » (ticker) field will be unblocked and positioned to the left of the screen, immediately after the « Mercado » (market) field.
- 1.2.** The user may copy (Ctrl + C) the asset's ticker on any screen and paste it (Ctrl + V) in the corresponding field on the strategy creation screen. The application will then automatically fill in the necessary fields for the creation of the UDS. The previous model will continue to operate as usual, however, whereby the trader fills in the remaining fields and the application fills in the ticker.

2. Development of new functionalities

- 2.1.** The market quotation screen has been enhanced to support import and export functionality via file in the CSV format.
- 2.2.** Automatic removal of periods, bars and dashes in the “IDInvestidor” (investor ID) field of the “Lista de Clientes” (list of clients) screen and in payment slips.
- 2.3.** Readjustment to the “Últimos 100 negócios” (last 100 transactions) function so that it remains deactivated when the user saves the work environment with the “Tela Controlada” (controlled screen) functionality switched off.
- 2.4.** Option of sending the “IDInvestidor” to the basket of indices and to the modification slip of exhibited orders (Shift+F7).

3. Removal of obsolete versions

After the update, only the three most recent versions of the ePUMA application’s platform as of 7.8.2.1 will be available for download. Migration to the updated version must occur without delay by July 30. After that date, the versions prior to 7.8.2.1 will not receive the technical support of B3.

Further information can be obtained from Services B3 – Trading, by telephone on +55 11 2565-5022 or by email at trading@b3.com.br.
