

CHANGE TO PRODUCT OR SERVICE

Improved access to data on the B3 website

Destined for segment participants: OTC; Listed.

Summary: We will unify the information on the Public Data page with that of the Daily Bulletin. Complementing this, we will reorganize the menu with new categories and modernizations of the interface to simplify access and browsing.

To improve the browsing experience on our website and to provide greater data visibility, we inform you that **as of December 15, 2025**, the Daily Bulletin and the webpage Public Data will be unified and optimized. We will carry out three initiatives:

1. Reorganization of the chapters and content of the Daily Bulletin:

To make browsing more agile, the current chapters of the Daily Bulletin will be reorganized, simplified and substituted by four new ones: Fixed Income, Equity, Derivatives, and Other Data. The details are contained in Annex 1 hereto.

2. New data in the Daily Bulletin:

The Daily Bulletin will henceforth publish all the data that are currently published on the Public Data page in the following files: Instrument List (Listed Segment), Margin Scenarios for Listed Assets, Consolidated Trades (Listed Segment), Consolidated Trades - After Market (Listed Segment), and Derivatives Open Position (Listed Segment).

The new information will substitute the “Statistical Summary”, “Stocks, term and options”, “After Market” and “After hours” subchapters of the of the Quotes chapter of

the Daily Bulletin. The details are contained in Annexes 2 and 3 of this External Communication.

3. Deactivations of the page and tables:

As all the information will be provided in the Daily Bulletin, the Public Data page **will be deactivated on January 19, 2026**, to prevent data consultation risks and for greater transparency for the publications.

Furthermore, another four tables of the Daily Bulletin will be deactivated, as we will provide the information on other pages on the B3 website. The details are contained in Annex 3 hereto.
