1. INTRODUCTION

This **Market Data B3 Commercial Policy** shall be read in conjunction with the **Market Data B3 Consumption Policy** and the **Periodical Self-Report Submission Manual**. Capitalized terms not otherwise defined herein shall have the meanings assigned to them in the **Market Data B3 Consumption Policy**.

This document lists **Market Data B3** products available for licensing and their pricing policy.

The fees listed in this **Market Data B3 Commercial Policy** are applied per Client, per counting unit, per month, per dataset, unless otherwise indicated, and are invoiced monthly in arrears.

If the **Distributor, Redistributor, or Reporting User** submits a correction to an already submitted **Periodical Self-Report**, any applicable payment adjustments shall be made based on the prices in effect in the month of correction, without applying any discounts that may have been applicable at the time of the original report or in the month of correction.

1.1. National Licenses and Applications

The fees related to **Licenses** and **Applications** consumed by **National Licensees** are expressed in Brazilian Reais (BRL).

The BRL-denominated fees contained in this **Market Data B3 Commercial Policy** shall be adjusted, effective January 1st of each year, by the annual inflation measured by the Brazilian National Consumer Price Index (IPCA) accumulated over the 12 (twelve) months ending in June of the year preceding the effective date (i.e., from July to June).

In the event of extinction, discontinuation, or unavailability of the IPCA Index, a substitute official index shall be adopted, as determined by the Central Bank of Brazil or other competent authority.

1.2. International Licenses and Applications

The fees related to **Licenses** and **Applications** consumed by **International Licensees** are expressed in US Dollars (USD).

USD-denominated fees shall be converted into BRL using the reference exchange rate calculated daily by the **Central Bank of Brazil – PTAX Sale (“PTAX”)**, applicable to the last day of the month in which the **Data Contained in Market Data B3** was used.

If the **Distributor**, **Redistributor**, or **Reporting User** submits a correction to an already submitted **Periodical Self-Report**, any applicable payment adjustments shall be made based on the PTAX rate applicable to the month in which the correction is submitted, and not the conversion rate of the month of data usage.

The USD-denominated fees contained in this **Market Data B3 Commercial Policy** shall be adjusted, effective January 1st of each year, by the annual inflation measured by the US Consumer Price Index (CPI) accumulated over the 12 (twelve) months ending in June of the year preceding the effective date (i.e., from July to June).

In the event of extinction, discontinuation, or unavailability of the CPI, a substitute official index shall be adopted, as determined by B3, in observance of the principles of good faith.

1.3. Amendments to this Market Data B3 Commercial Policy

In addition to price adjustments based on recomposition by inflation indices, B3 reserves the right to amend the fees contained in this **Market Data B3 Consumption Policy** at any time, at its sole discretion and upon prior notice, in accordance with the conditions set forth in the **Market Data B3 Consumption Policy**.

Any price changes shall be disclosed through an update to this **Market Data B3 Commercial Policy**.

B3, at its sole discretion, may grant discounts and exemptions.

Notes:

¹ In the year 2026, the **Crypto Dataset** will be made available jointly with the **Futures Dataset**, and both will be charged together as a single **Dataset**. Starting in 2027, the **Crypto Dataset** and the **Futures Dataset** will be separated, and charges will be applied independently as two distinct **Datasets**.

² **Operations Professionals** are natural persons necessarily affiliated with **B3's Trading Participants** who use a **Professional Terminal** exclusively to perform the role of trading desk operator or financial advisor in the intermediation of capital market transactions. The **B3 Trading Participant** must keep the registration of such **Operations Professionals** updated in the database indicated in the **Periodical Self-Report Submission Manual** and link the document identification of these **Operations Professionals** who use the **Applications** in the **Periodical Self-Report** to qualify for the differentiated fee.

³ **Technology Professional** is a natural person necessarily affiliated with **Distributors** or **Redistributors**, reported as their **Internal Use**, who uses **Market Data B3** in a **Professional Terminal** exclusively to (i) develop and test systems (software and hardware), and (ii) provide technical support and customer service at the **Distributor** or **Redistributor**. The **Distributor** or **Redistributor** must link the document identification of the **Technology Professional** in the **Periodical Self-Report** to qualify for the differentiated fee. Each **Periodical Self-Report** may include, as **Professionals Terminals** for **Technology Professionals**, a maximum

number equivalent to 10% of the sum of **Professional Terminals** and **Operations Professionals Terminals** reported as **Internal Use** in the **Periodical Self-Report** for the same month. If a greater number of **Technology Professional Terminals** are reported, the excess will be charged using the **Professional Terminal** fee.

⁴ When opting to report the **Non-Display Enterprise** fee for **Trading** and **Non-Trading Applications**, the reporting party must not report **Trading** and **Non-Trading Applications** individually.

⁵ **Trading Platforms** must always report the **Non-Display Enterprise Trading Platform**, and individual reporting for this type of license does not apply.
